Ahmedabad - 382350

SUMMARY

Front-End Developer with hands-on internship experience at Infolanze Tech Pvt. Ltd. (3 months). Skilled in React.js, Redux Toolkit (Thunk), Tailwind CSS, and REST API integration. Adept at building responsive, interactive, and data-driven applications with modern UI frameworks. Strong foundation in JavaScript, state management, and component-based design. Passionate about delivering high-quality, user-centric web solutions.

PROFESSIONAL SKILLS

React JS, Redux

HTML, CSS, JavaScript

Git, Git hub

React Bootstrap, Bootstrap, Tailwind Css

EXPERIENCE

Frontend Developer Intern

Infolanze Tech Private Limited | Ahmedabad

jun-Aug 2025(3 months)

- Designed and developed a Product Gantt Tracker web application for production order management.
- Integrated REST APIs with Redux Toolkit Thunk for real-time process and order tracking.
- Implemented a dynamic Gantt chart with three color codes (Pending, In-Progress, Completed) for visual clarity.
- Added hover tooltips to display PO number, process name, and completion percentage.
- Built a responsive UI with Tailwind CSS, optimized for cross-device usage.
- Collaborated with backend developers to ensure smooth data flow and performance optimization.

PROJECT

📊 Production Order Management System (Gantt Chart) (Internship Project)

july-Aug 2025

- Tech Stack:** React.js, Redux Toolkit, REST API, Tailwind CSS, date-fns
- Developed a dynamic, real-time Gantt chart to visualize production processes.
- Implemented date-based bar rendering with color-coded statuses (Green, Yellow, Gray).
- Added interactive tooltips for process details (start/end date, progress %).
- Enabled real-time updates via API polling without page refresh.

挂号 Doctor Appointment Website (Internship Project)

jun-july 2025

- Tech Stack:** React.js, Redux, Tailwind CSS
- Developed an appointment booking system with form validation using Redux.
- Integrated a basic payment gateway for confirmations.
- Designed a modern, responsive interface with Tailwind CSS.

🎬 Movie Review App

April- May 2025

- Tech Stack:** React.js, React Bootstrap, Context Api, TMDB Api
- Search and browse movies by title
- View detailed movie information (title, genre, rating, description, etc.) Add your own reviews and ratings
- Responsive UI with mobile-first design
- Data persistence using Local Storage (or external API if used)
